To: Customers of Ultra Electronics – Energy, Sensors

Subject: Ultra Electronics Energy Conflict Minerals Compliance Announcement

Ultra Electronics Energy annually collects information from its supply chain to meet specific regulatory compliance obligations in the jurisdictions where Ultra Electronics Energy conducts business. As a customer of Ultra Electronics Energy, we are pleased to announce an improvement to meeting our compliance obligations. We have launched our Conflict Minerals compliance program through Assent Compliance as part of our responsibility to provide information on these regulatory compliance obligations to our customers. We recently announced the launch of our REACH RoHS compliance program also through Assent Compliance, and we have now added Conflict Minerals.

Assent Compliance, acting on Ultra Electronics Energy's behalf, is authorized by Ultra Electronics Energy to collect the important compliance information for annual reporting period from our supply chain, and subsequently respond to our customers with timely and accurate information.

Our request is simple. Henceforth, whenever you have a request for Conflict Minerals compliance update please send your requests directly to UltraEnergyRequests@assentcompliance.com. It is the same portal we use for REACH RoHS. Assent Compliance will acknowledge your request and provide updates as needed. And of course, if there are any issues or delays please reach out to our customer care team directly @ 512-434-2900 or via email at CustomerCare@ultra-nspi.com

We thank you for your cooperation as we continue to demonstrate our commitment to providing the highest quality products and service.

Gil Acosta

Director of Operations

ULTRA ELECTRONICS ENERGY
