Camp Engineering Sales has become an authorized manufacturer representative for Ultra Energy

ROUND ROCK, Texas– Ultra Energy, a leading supplier of power industry sensors and instrumentation, is pleased to announce that Camp Engineering Sales, Inc. has become an authorized manufacturer representative. The two companies recently entered into a long-term agreement whereby Camp Engineering Sales will represent Ultra Energy equipment and services to current and potential clients and business associates.

Ultra Energy is pleased to solidify this agreement with founder Jesse Camp, who established the company in 2007 to provide engineering sales to commercial and industrial sectors, including aerospace, chemical, power, pharmaceuticals, water and wastewater and OEM.

As Ultra Energy’s authorized manufacturing representative, Camp Engineering Sales will help generate business in several of these targeted industries. This partnership between the two companies was strategically designed with the intent to expand the reach of Ultra Energy’s world-class sensors and instrumentation into other untapped markets. The partnership combines Ultra’s strength in product design and delivery with Camp Engineering’s sales leadership and expertise.

Ultra Energy is a recognized global leader that supplies sensors for harsh environment applications, including a sensor engineer-to-order service to provide custom sensors for a wide variety of applications. Ultra also provides a sensor qualification service to help customers achieve compliance with industry regulatory standards like the Aerospace AS9100D regulation.

Chris Brown, Director of Sensor Sales and Marketing said, “It is my pleasure to announce this agreement with Camp Engineering’s excellent team to expand our reach of offering safety-rated and non-safety-rated sensors and instrumentation to maximize operational effectiveness in multiple industries. Camp’s sales engineers understand how to sell engineered systems and provide additional support and advice that is crucial to all of these industries. Sales engineers are so critical in the industries we work with, and Camp Engineering is highly regarded and highly successful.”

Jesse Camp, founder of Camp Engineering Sales said: “We are proud to be associated with Ultra, whose instrumentation products strengthen the Camp sales portfolio. Buying decisions in engineering markets are made differently than in many other consumer contexts and are highly based on technical information and engineering analysis. We are therefore very pleased to be able to provide our sales expertise to Ultra Energy’s exciting products.”
